

UNITED STATES TROOPS ORDERED TO BE READY TO CROSS THE MEXICAN FRONTIER

(By Federal Wireless Telegraph.)
WASHINGTON, December 20.—(Special to The Advertiser)—American life and property are endangered at Cananea by 1000 striking Mexican miners. Mexican authorities profess inability to control the situation. Gen. E. Z. Stever, commander of the United States troops in Texas, has been notified at El Paso, today, to be ready to protect all American citizens in Cananea.

WASHINGTON, December 20.—(Special to The Advertiser)—Occupation of a portion of Mexico by United States troops within a month, unless President Madero accepts at once a new ultimatum issued by President Taft, is admitted to be more than a possibility here today by state department officials.

The state department admits that efforts to reach a friendly adjustment of the outrages against American life and property in Mexico have failed, and both President Taft and Secretary of State Knox recognize the time has come to act.

Madero's reply to Taft's demand for redress, received December 14, angered the President, and before leaving last night for Panama he penned a curt demand to Madero in which severe threats were made.

In his answer to Taft's former demand, Madero intimated that the Americans slain in Mexico deserved to be left to their fate, that Americans would not be paid indemnity for property destroyed, and that the Mexican government practically is unable to keep order in the country.

The crisis with Mexico follows a long series of diplomatic exchanges, and the new ultimatum makes it plain that Washington is no longer going to temporize with the situation.

Unless Madero has given satisfactory response by the time President Taft returns from Panama, he will ask congress to authorize the following demands:

First: The dropping of the neutrality bars between the United States and Mexico, thereby enabling revolutionists to secure arms. This move, it is believed, would encompass the fall of Madero.

Second: The seizure of a portion of Mexican territory and the blockading of Mexican ports.

The move against Madero follows a series of conferences between Taft, Knox and Wilson, American ambassadors to Mexico, who all agree that the Madero government is hopelessly impotent.

PRESIDENT MADERO'S PALACE IN THE CITY OF MEXICO.

He is insisting that the Triple Alliance, headed by Germany, intervene at once, and halt the march of the Servians to the Adriatic. He is said to have expressed himself contemptuously at the behavior of Austria, declaring that "she was afraid to act alone."

TURKEY GIVES IN TO ALLIES.
CONSTANTINOPLE, December 20.—(Special to The Advertiser)—The instructions forwarded by the Ottoman government to Rechid Pasha, the leader of the Turkish peace delegation in London, authorizes him to treat with the Greek delegates without their previous signature to the armistice protocol.

The Turkish delegation is ordered to apply during tomorrow's meeting for permission for the revictualing of the fortress at Adrianople.

In official circles it is explained that the change of the Turkish attitude toward Greece is the result of the fact that the situation in regard to Greece has not turned so much to the advantage of Turkey that the Turkish government would demand exceptional conditions before signing an armistice with Greece.

One More Warning Will Be Given The Mexicans Before Americans Act

(By Federal Wireless Telegraph.)
WASHINGTON, December 21.—(Special to The Advertiser)—One more warning will be given President Madero of Mexico to protect life and property of Americans in his Republic, and if it goes unheeded the United States will act.

This admission was made here today by a state department official.

The state department was advised today that bandits yesterday sacked the San Isabel ranch and assaulted two American women and maltreated two American negroes.

Hundreds of Americans are abandoning their property and fleeing for refuge to points inside the federal lines.

More than 1600 miners, the state department is informed, are now on strike at the Green copper mines, in Cananea, where desultory fighting and rioting are in progress and conditions are critical. The Mexican police on Thursday fought a great mob which surrounded the smelter and succeeded in repulsing them.

MADERO IS HAUGHTY.

WASHINGTON, December 21.—(By Associated Press Cable)—President Madero has flouted the demands made upon his government by Secretary of State Knox, who insists that the Mexican authorities take measures to protect Americans and American property in the southern Republic, from all danger of the frequent uprisings in that country.

Madero declares in effect that Americans must look out for themselves and that Mexico cannot be held responsible for the acts of rebels within her territory.

This attitude of the Mexican president it is believed will result in the adoption of sterner measures on the part of Uncle Sam. It is reported that the state department has informed the President, now on his way to Panama, of the crisis that has arisen, but that no action will be taken until after Mr. Taft returns. It is believed that the United States will then send Mexico an ultimatum, calling upon her to protect citizens of this country or suffer the penalty.

agreed with Mr. Churchill's autocratic assumption of the executive, as well as the administrative authority, they are dismissed in an insolent way.

Mr. Churchill's reply was crisp and stinging. Lord Charles Beresford, he said, had made a number of insinuations of a very gross character.

"He has stalked in the background, waiting for an opportunity to make charges unsupported on facts," Mr. Churchill declared.

"He has leveled scurrilous allegations of espionage, favoritism, blackmail and inefficiency against me, but I have never taken him seriously. I am sorry he was not made admiral of the fleet, as I know how sore he is about it. But since I have been at the admiralty I have discovered that it would be very difficult to find a board of naval men to approve of such an arrangement."

Mr. Churchill stuck to his guns in saying he had written to Admiral Bridgeman, in answer to his resignation, which was on account of the admiral's health rendering him incapable of adequately fulfilling his duties.
